Patrons

As our guest we ask you to ask one of our members to be your patron, or 'Flying Buddy', We do this to ensure that you get a briefing about the flying area, with the intention of making flying here as safe as possible for all of us. Our members are well aware of the Patron or Flying Buddy rule, and are more than willing to play this role.

No Flying Buddy – no flying, sorry !

We feel it's important to hear from one of us where to be careful, and where the mountains, hills and other structures at the flying site might cause you problems, as well as the 'no go' areas are, such as the bird protection area. Oh yes, and there's the thing when a paraglider and a hang glider go to land at the same time. Ask your Flying Buddy about these things.

Remember, you can't make your Flying Buddy responsible for your flying, they are there to help make things safer for us all when we fly.

As a club, the DGFC cannot accept any liability for you when you fly at our sites.
